

# COMPANY CAPABILITY LIST

## OBJECTIVE:

To define the "Capability List" of PIA Engineering & Maintenance Shops for the maintenance of aircraft components.

## SCOPE OF APPLICABILITY:

This capability list contains all the hydraulic, mechanical, electrical and electronics aircraft components being maintained in different shops of PIA Engineering & Maintenance.

## GENERALITIES:

Setting up this list:

- Fulfills the recommendations of Authorities.
- Facilitates in managing the maintenance of components.
- Provides a better means of dealing with the customer.

## PROCEDURE:

Company's Capability List (CCL) shall be compiled by integrating capabilities, for maintenance on relevant components, from all divisions through the Chief Engineers (concerned production area).

The list shall be submitted to Chief Engineer (Quality Assurance) for approval, against the scope of work being approved by the Competent Authority. The approved list shall be maintained and available on-line system ([PIAC Website www.piac.com.pk](http://www.piac.com.pk)). All concerned Shops shall maintain their own "Shop Capability List", approved by Chief Engineer (concerned). Company Capability List may be published as a hard copy for presentation to the Competent Authority, when asked for.

PIA Engineering & Maintenance is authorized to issue the "Certificate of Release to Service / EASA Form-1" for all maintenance carried out on Aircraft components mentioned in the list.

The distribution managed under the framework of the procedure "Control & Management of Quality Documents"
